

Scale of Charges of the Certification Body ALPHA

1. Aim

This document is used for fixing all rates which are raised from the certification body.

2. Scope

All employees of ALPHA, office and management, all committees of ALPHA.

The scale of charges and the fixing of the unit of charge are binding comparably on all users of the certification system.

The valid scale of charges is available from the certification body on request. It will be attached with every confirmation of order.

3. Fees for certificates

3.1 Basic rate

For every order of certification according to the ALPHA certification system it will be raised a basic rate of 5 units of the charge. This amount shall cover a. o. the expenditures for the issue of the certificates and clearances and queries to apparatuses descriptions, summarisation to apparatuses families and other details which are not included in the test report.

3.2 Handling charge

The handling charge depends on the complexity of the submitted test report. The basis is the number of the used forms for the certificates of the Test Report Forms of ALPHA/LOVAG. This charge includes an appropriate compensation for the expenditures of the preparation of ALPHA/LOVAG documents.

The charge is 0.1 units per page.

3.3 Unit of charge

The unit of charge is for

members of ALPHA	EURO 60
non-members	EURO 120

The higher unit of charge for non-members considers the general expenses for the administration of the certification body. For this the members have provided pre-performances with their membership fees.

Valid from 5th July, 2005
